RE: JSB CIVILS LIMITED

Please accept this as a letter of recommendation for JSB Civils Limited.

In February 2018, tender enquiries were sent out for the road and sewer works forming part of the redevelopment at the former Myford works in Beeston, Nottinghamshire. These works were to be constructed under section 38, Section 228 and Section 104 Agreements.

From the outset JSB Civils were competitive in pricing the project, but most importantly they took ownership of the project and were by far and away the most proactive company in the tender process.

JSB Civils worked well with both highway and drainage inspectors during the construction phase, facilitating adoption of the Section 228 roads in a timely manner on completion.

Regular meetings were held with JSB Civils and any on site concerns were addressed quickly by the site management team. The quality of the work was very good and any defects were resolved quickly to our satisfaction.

Yours Sincerely
For PEVERIL HOMES LIMITED

TOM BROSTER
Land and Technical Manager
